Crawford County Auditor

June 3, 2010

Crawford County Commissioners
Citizens of Crawford County

As County Auditor, I am pleased to present Crawford County's Comprehensive Annual Financial Report (CAFR) for the year ended December 31, 2009. This CAFR conforms to generally accepted accounting principles (GAAP), as applicable to governmental entities. State law requires that the County file basic financial statements with the Auditor of State within one hundred and fifty days after the close of the fiscal year. This published report fulfills that requirement and further provides an in-depth review of the County's financial activities.

The responsibility for both the accuracy of presented data and the completeness and fairness of the presentation rests with the County Auditor. The County has a framework of internal controls established to ensure the accuracy of the presented data and the completeness and fairness of the presentation. Because the cost of internal controls should not exceed anticipated benefits, the controls provide reasonable assurance that the financial statements are free of any material misstatements. This report will provide the taxpayers of Crawford County with financial data that enables them to gain a true understanding of the County's financial affairs.

GAAP requires Management's Discussion and Analysis (MD&A), a narrative introduction, overview, and analysis of the basic financial statements. The MD&A is located in the Financial Section of this report, following the Independent Accountants' Report. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it.

The Auditor of the State of Ohio has issued an unqualified opinion on Crawford County's financial statements for the year ended December 31, 2009. The Independent Accountants' Report is located at the front of the financial section of this report.

PROFILE OF THE COUNTY

The County was formed by an act of the General Assembly on April 1, 1826. Located approximately sixty miles from the state capital of Columbus, the County encompasses three municipalities, four villages, and sixteen townships. The central part of the County is comprised largely of the three municipalities, Bucyrus (which is the County seat), Crestline, and Galion. The remaining areas of the County are semi-rural to rural. The County includes 400 square miles and has an estimated population of 43,403.

The County provides a wide range of services as mandated by State statute. The three member Board of County Commissioners serves as the taxing authority and the contracting authority for the County. The County Commissioners also create and adopt the annual operating budget and approve expenditures of County tax monies.

The County Auditor serves as Chief Fiscal Officer for the County, as well as the tax assessor for all political subdivisions within the County. The County Auditor is responsible for maintaining all financial records and establishes taxing rates for real estate and personal property. Once collected, the tax receipts are distributed to the appropriate political subdivision. The County Auditor is also the chief disbursing agent who, by the issuance of County warrants, makes payment to creditors for liabilities incurred by the County. The County Auditor also serves as the County Sealer of Weights and Measures and as the licensing agent for certain permits required by State statute. The County Auditor serves as Fiscal Agent, but the County is not financially accountable for the Crawford County General Health District, the Crawford County Soil and Water Conservation District, the Crawford County Park District, and the Regional Planning Commission.

The County Treasurer is the custodian of all County funds and is responsible for collecting all tax monies and applying payments to the appropriate tax accounts. The Treasurer is also responsible for investing all idle County funds as specified by Ohio law. Other elected officials serving four-year terms include the Recorder, Clerk of Courts, Coroner, Engineer, Prosecutor, and Sheriff. The Common Pleas Court Judges and the County Municipal Court Judge are elected to six-year terms.

The County Commissioners are required to adopt a final budget by no later than April 1 of each year. This annual budget serves as the foundation for Crawford County's financial planning and control. The budget is prepared at the fund, program, department, and object level. Department heads are required to submit any changes to their budget through the County Commissioners.

LOCAL ECONOMY

Consistent with national trends in 2009, Crawford County's unemployment rate rose to double digits. There was a direct correlation between the U.S. weak economy and the loss of local job opportunities, especially in the manufacturing sector. Declining job opportunities are attributable to downsizing and plant closings in Crawford County and adjacent counties that hire county residents. Despite these declines in Crawford County, demand for manufacturing jobs in the private sector remains higher than the national average. Agriculture is another industry with a continued strong presence in the County, with over 88 percent of the land use categorized as agricultural or forestry. The finance and insurance industry thrived, with conservative yet continued growth. Private sector employment in the retail trade was relatively stable, making up about 10 percent of Crawford County's local economy.

Employment shifts were seen in two of the County's major employers, Timken and General Electric. Mid-year, Timken officials announced their intention to reduce their Crawford County presence by relocating their distribution center to North Carolina. Timken will continue to manufacture roller bearings in the Crawford County plant in Bucyrus. Based on local support, and the high performance and efficiencies of its Bucyrus fluorescent lighting manufacturing plant, General Electric secured local, state, and federal incentives to invest \$90 million in improvements in the Crawford County plant and add one hundred plus new jobs.

Grant dollars were also awarded to Crawford County's Mansfield Casting in New Washington through the Rural Energy for America Program (REAP) enabling them to become more energy efficient and preserve seventy jobs. Ohio Industrial Site Improvement Fund (ISIF) grant dollars were leveraged to construct the Stetzer Road Industrial Park roadwork, water, and sewer infrastructure. Grant dollars and other funding awards went to several other businesses and entities throughout Crawford County, including financial assistance from the State's Community Development Block Grant-Economic Development Program (CDBG-ED) to the City of Crestline. CDBG-ED dollars were awarded to extend public infrastructure in the form of a waterline, incenting a \$13 million private investment in a new fertilizer distribution center resulting in significant job retention and job creation in Crawford County.

The continued strength in the manufacturing sector, even in a recession, is the result of a significant number of highly skilled workers in a labor market comprised of Crawford and its contiguous counties. To maintain this competitive advantage and enable workers and manufacturers to advance and compete in today's and tomorrow's workplace, there remains an ongoing need to retool local workforce skill sets. Training centers continue to support workforce development through programs such as Project Hire, Training Workers to Advance, and Subsidized Employment Program. These and other workforce development programs serve as conduits between the displaced, the unemployed, and the underemployed and employers looking to hire new talent. Training centers also serve as avenues to upgrade and diversify the skills of incumbent workers as well as initial training centers for entry level workers.

Agriculture continues as the second leading economic driver in the County with over \$115 million in annual agriculture product sales.

Location as well as transportation assets remain strengths for the County. The U.S. 30 Corridor is a key transportation conduit that links Crawford County and contiguous counties to two of the nation's major north-south interstate highway systems, I-71 and I-75. This transportation asset assists existing businesses and attracts new businesses to the area. Crawford County's proximity to Cleveland, Columbus, and Toledo is also a logistical advantage. All three are within ninety minutes of Crawford County.

LONG-TERM FINANCIAL PLANNING

During 2009, the County Commissioners implemented a form of long-range financial planning by building a financial forecasting model. The County contracted with the Auditor of State's Office to help the County build a sustainable forecasting model for the General Fund of the County. The County developed a three-year forecast model that the County Commissioners will use each year with the budgetary process. The forecast provides a three-year historical perspective of actual revenues and expenditures along with three years of projected revenues and expenditures which were compiled using significant financial assumptions provided by the County Commissioners, individual office holders, the County Budget Commission, and the Auditor of State. The financial forecast was used by the County Commissioners in 2010 to set spending levels for all departments and agencies within the General Fund.

In conjunction with the three-year financial forecast, the County Commissioners, elected officials, and department heads determined that an outside review and audit of the County's health insurance program was necessary in 2009. Over the last several years, County finances have been deeply affected by the bleak economic conditions, increased cost of health insurance, and a decrease in revenue streams. As such, the County Commissioners decided to implement a High Deductible Health Plan in conjunction with a Health Savings Account and began shifting the cost of health insurance premiums to the employee and reducing the level of benefits.

RELEVANT FINANCIAL POLICIES

It is the County's policy to ensure that current year revenues are sufficient to fund current year expenditures without the use of non-recurring revenues. Expenditures are set based upon available revenues with the County Commissioners determining the level of funding for each department or office within the primary government.

The County Treasurer manages the investment of County funds by adhering to the Investment and Depository Policy that has been approved by the County's Investment Advisory Committee. Any financial institution that holds County funds must also agree to the requirements of this policy. This policy details the objectives and allowable rules for the safekeeping of County funds.

The County Auditor's capital assets policy is designed to provide accountability and control over the County's capital assets and to assist departments in gathering and maintaining information needed for the preparation of financial statements.

The County Auditor's Procedures and Guidelines Manual assists all County departments in day-to-day accounting procedures and practices. The Financial Report Review Committee also provides County departments with guidance to ensure that the County maintains effective internal controls.

MAJOR INITIATIVES

As the result of a mandate by the EPA, the County is required to install wastewater lines within the Westmoor subdivision located in Polk Township. This project will provide two hundred thirty-seven units and six vacant, but buildable parcels, with sanitary sewer service. Sources of funding for the project include federal dollars from the American Recovery and Reinvestment Act covering approximately 65 percent of the total cost of the project, a USDA Rural Development grant, and loan assistance from OPWC. Construction on the project began February 2010 and is expected to be completed in November 2010.

In light of the economic challenges faced by the County in recent years, the Crawford: 20/20 Vision Initiative was launched by the Crawford County Economic Development Partnership, Inc. in the latter part of 2009 and is being managed by the Crawford County Economic Development Partnership, Inc. This initiative is totally funded by private donations and invites local business leaders, non-profit agencies, and community members to come together to discuss and plan real, workable solutions that address social and economic issues for the future of Crawford County. Some of the challenges that have been identified include a shrinking population within the County and a decline in business echoed by a decrease in the number of jobs in the community. At the core of the Crawford: 20/20 Vision Initiative is the development of a county-wide visioning plan that will be owned by the public. As needs are identified and citizens develop creative, long-term ways to address them, they will be compiled in a comprehensive action plan that will be executed by engaging a team of community leaders to implement the plan.

CERTIFICATE OF ACHIEVEMENT FOR EXCELLENCE IN FINANCIAL REPORTING

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Crawford County, Ohio for its Comprehensive Annual Financial Report (CAFR) for the year ended December 31, 2008.

In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to GFOA to determine its eligibility for another certificate.

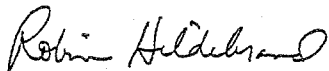

ACKNOWLEDGEMENTS

The preparation and publication of this report would not have been possible without the cooperation of each elected official, department head, and a large number of County employees. I am grateful for their assistance and cooperation.

I also want to thank Local Government Services of the Auditor of State's Office for their guidance and continued professionalism throughout this project. I want to gratefully acknowledge the assistant auditors from Auditor of State, Mary Taylor's office who were able to complete this audit in a timely fashion.

Finally, I would like to recognize members of my staff who have the responsibility for preparing this report. I would like to recognize Robyn Sheets who has the responsibility of preparing this report as GAAP coordinator, Joan Wolfe for her assistance with statistics, Robin Shumate for payroll help and knowledge, and Penny Lepp and Barb Garverick for their assistance with budgetary information. Without their assistance and dedication this report would not be possible.

Sincerely,

Robin E. Hildebrand
Crawford County Auditor

Crawford County, Ohio
Management's Discussion and Analysis
For the Year Ended December 31, 2009
Unaudited

The discussion and analysis of Crawford County's financial performance provides an overview of the County's financial activities for the year ended December 31, 2009. The intent of this discussion and analysis is to look at the County's financial performance as a whole.

Highlights

Highlights for 2009 are as follows:

Net assets for governmental activities decreased by a modest 5 percent from 2008.

The County's long-term debt decreased by \$1,033 thousand or 6 percent from the payment of general obligation bonds in 2009.

Using This Annual Report

This annual report consists of a series of financial statements. These statements are organized so the reader can understand Crawford County's financial position.

The Statement of Net Assets and the Statement of Activities provide information about the activities of the County as an entity and present a longer-term view of the County's finances.

Fund financial statements provide the next level of detail. For governmental funds, these statements tell how these services were financed in the short-term as well as what remains for future spending. Fund financial statements also report the County's most significant funds in more detail than the government-wide statements. Non-major funds are presented separately from the major funds in total and in one column. For Crawford County, the General Fund is the most significant of the major funds.

Reporting the County as a Whole

One of the most important questions asked about the County's finances is "How did the County do financially during 2009". The Statement of Net Assets and the Statement of Activities answer this question. These statements include all assets and liabilities using the accrual basis of accounting that is similar to the accounting method used by most private-sector companies. This basis of accounting takes into account all of the current year's revenues and expenses regardless of when cash is received or paid.

These two statements report the County's net assets and changes in those assets. This change in net assets is important because it tells the reader whether the financial position of the County as a whole has increased or decreased. Over time, increases or decreases in the County's net assets are one indicator of whether the financial position is improving or deteriorating. Causes for these changes may be the result of many factors. Some of these factors are financial and some are not.

Non-financial factors include changes in the County's property tax base and the condition of the County's capital assets (roads, buildings, water and sewer lines). These factors need to be considered when assessing the overall health of the County.

In the Statement of Net Assets and the Statement of Activities, the County is divided into two kinds of activities:

Governmental Activities - Most of the County's programs and services are reported here including general government, public safety, public works, health, human services, and economic development. These services are funded primarily by taxes and intergovernmental revenues, including state and federal grants and other shared revenues.

Business-Type Activities - These services are provided on a charge for goods or services basis to recover all or most of the costs of the services provided. The County's Sewer and Sanitary Landfill are reported here.

Reporting the County's Most Significant Funds

The fund financial statements provide detailed information about the County's major funds. The County's major governmental funds are the General Fund, Auto License and Gas Tax Fund, Child Welfare Fund, County Home Fund, Job and Family Services Fund, Jail Operation Levy Fund, and Developmental Disabilities Fund.

A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental Funds - Governmental funds are used to account for essentially the same functions reported as governmental activities on the government-wide financial statements. Most of the County's basic services are reported in these funds that focus on how money flows into and out of these funds and the year end balances available for spending. These funds are reported on the modified accrual accounting method that measures cash and all other financial assets that can be readily converted to cash. The governmental fund financial statements provide a detailed short-term view of the County's general government operations and the basic services being provided, along with the financial resources available.

Because the focus of the governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities on the government-wide financial statements. By doing so, readers may better understand the long-term impact of the County's short-term financing decisions.

Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains a multitude of individual governmental funds. Information is presented separately on the governmental fund balance sheet and on the governmental fund statement of revenues, expenditures, and changes in fund balances for the major funds, which were identified earlier. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

For the Year Ended December 31, 2009

Proprietary Funds - The County maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities on the government-wide financial statements. The County uses enterprise funds to account for the Sewer operation and the Sanitary Landfill operation. Internal service funds are an accounting device used to accumulate and allocate costs internally among the County's other programs and activities. The Health Benefits Fund accounts for the claims and liabilities relating to the County's health benefits self-insurance program.

Fiduciary Funds - Fiduciary funds are used to account for resources held for the benefit of parties outside the County. Fiduciary funds are not reflected on the government-wide financial statements because the resources from these funds are not available to support the County's programs. The accounting methods used for fiduciary funds are much like that used for the proprietary funds.

Notes to the Financial Statements - The notes provide additional information that is essential to a full understanding of the data provided on the government-wide and fund financial statements.

Other Information - In addition to the basic financial statements and accompanying notes, this report also presents combining and individual fund statements and schedules.

Government-Wide Financial Analysis

Total assets for governmental activities did not decrease significantly from the prior year. Current liabilities increased from a property tax levy passed by the voters in 2009 to be collected in 2010, and that is reported as deferred revenue for Developmental Disabilities. Current liabilities also increased due to an increase in claims payable for health care. Overall, total liabilities did not increase significantly. Total net assets decreased by 5 percent which was primarily from the 36 percent decrease in unrestricted net assets from the County's use of cash reserves for general operations during 2009.

Funding for the major programs of the County is derived from charges for services, operating grants, capital grants, sales taxes, and property taxes. The Child Support and Jobs and Family Services Departments are basically financed with state and federal moneys. The County Home, Council on Aging, Children Services, and Developmental Disabilities are supported with a combination of voted property tax levies and grants. The operation of the County Jail is financed by a voted sales tax levy, charges for housing prisoners, and with transfers from the General Fund. The major revenue sources for the County Engineer and Highway Department are motor vehicle license fees and gasoline taxes.

For governmental activities, charges for services revenue increased by 7 percent due to the receipt of deferred charges from the Solid Waste Management District. Operating grants, contributions, and interest did not change significantly from 2008. Capital grants and contributions decreased as a result of the County receiving less Issue I funding for the resurfacing of County roads in 2009. Sales tax revenue decreased by 14 percent in 2009 as a result of the national recession. Unrestricted grants and entitlements decreased by 13 percent from a reduction in local government receipts from the State of Ohio. Interest revenue decreased 45 percent in 2009 due to less money being invested and lower interest rates. Other revenues dropped significantly in 2009 from the reimbursement of administrative expenditures in 2008 for the Job and Family Services program.

The Legislative and Executive program consists of costs associated with the general administration of County government including the services of the County Commissioners, Auditor, Treasurer, Recorder, and Prosecutor. The Judicial program accounts for costs associated with the administration of the County's court system including Common Pleas and Municipal courts. Costs associated with the operation of the County Jail and the Sheriff's Department are accounted for in the Public Safety program. The Public Works program accounts for costs associated with the operation of the County Engineer and Highway Department. The Health program primarily accounts for costs associated with the school for Developmental Disabilities. The Human Services program accounts for costs associated with providing services for various state and locally mandated welfare programs. The most significant programs that are supported with local tax dollars are the operation of the County Home and providing services to the elderly through the Council on Aging. The Human Services program also includes the costs associated with Child Support, Child Welfare, and the Jobs and Family Services Department. The Economic Development program is supported by membership fees and operating grants and accounts for costs associated with the office of economic development and land use planning. None of the County's programs experienced a significant change in expenses from 2008. This is attributable to conservative spending by elected officials and department heads.

Charges for services revenue decreased for business-type activities by 14 percent due to additional tonnage received at the landfill in 2008 from the increase of home demolition from significant damage done from the Midwest flooding. Capital grants and contributions for business-type activities increased as a result of the Sewer District receiving Issue I funding to rehabilitate a water tower. Expenses for sewer operations increased almost 67 percent due to maintenance performed on the water tower. Expenses for the sanitary landfill decreased 15 percent as a result of incurring more costs in 2008 related to receiving the additional tonnage.

Table 3, for governmental activities, indicates the total cost of services and the net cost of services. The statement of activities reflects the cost of program services and the charges for services, grants, and contributions offsetting those services. The net cost of services identifies the cost of those services supported by tax revenues, unrestricted intergovernmental revenues, and other general revenues.

Program revenues paid 64 percent of the cost of services for legislative and executive and judicial programs. This was significantly higher than in 2008 at 52 percent. This increase is attributed to the reactivation of an agreement between the County Commissioners and the Solid Waste Management District and also included a one-time payment of \$500,000 to the legislative and executive program.

Program revenues for public works were sufficient to cover the majority of the total cost of services.

Program revenues for the health program decreased from less tonnage being received at the landfill and a decline in grant revenues for developmental disabilities activities.

Program revenues for economic development increased from the receipt of grants from the State of Ohio for construction of an industrial park.

In 2009, 38 percent of the revenues to provide the County's services were derived from the County's general sources such as property taxes, sales taxes, and state shared revenues. This is consistent with 2008.

Governmental Funds Financial Analysis

The County's major governmental funds are the General Fund, Auto License and Gas Tax Fund, Child Welfare Fund, County Home Fund, Job and Family Services Fund, Jail Operation Levy Fund, and Development Disabilities Fund. Fund balance in the General Fund decreased as a result a 10 percent decrease in revenues, generally due to the effect of the economy, and an increase in transfers to support the Jail Operation Levy Fund. Revenues exceeded expenditures by 12 percent in the Auto License Gas Tax Fund resulting from a fewer number of road projects completed in 2009. The Child Welfare Fund had a 10 percent increase in fund balance due to fewer contracts with outside agencies for child placement in 2009. The County Home Fund had a negative net change in fund balance. Although there has been a slight decrease in resident census from year to year at the County Home, the cost of operations continues to exceed operating revenues. The Job and Family Services Fund had a slight decrease in fund balance. The Jail Operation Levy Fund reported a deficit fund balance. Although expenditures remained consistent and the General Fund continued to support the fund with transfers, the fund had an 11 percent decrease in sales tax revenues. The Developmental Disabilities Fund had nearly a 13 percent increase in fund balance; the result of an increase in intergovernmental revenue received from the State of Ohio.

Business-Type Financial Analysis

The County's enterprise funds consist of the Sewer Fund and the Sanitary Landfill Fund. The County provides water and sewer services to approximately one hundred twenty customers. Water is being provided to these customers through a water line constructed from the City of Bucyrus to the Village of North Robinson. Construction costs were paid from the users of the water line and from a grant received by the County. In the Sugar Grove area of Whetstone Township, a centralized sewer system was constructed to replace failing systems. Construction costs were financed with CDBG and Issue I grants. For 2009, net assets of the Sewer Fund decreased by 6 percent as a result of an increase in expenses incurred for rehabilitating a water tower.

In 2009, operation of the Sanitary Landfill continued under a lease agreement between the County and Santek Environmental. Under this agreement, Santek Environmental operates the landfill and pays monthly fees to the County. These fees are used for debt retirement of the Landfill. Santek will assume all future construction costs of landfill cells and costs associated with closure of the facility. The agreement allows the County to retain ownership. Santek Environmental has expanded the market area of the Sanitary Landfill.

Since the County has outstanding debt, all solid waste generated within the County is required by federal mandate to be disposed of at the local facility. This mandate is extended to Santek Environmental as long as the County has tax-supported debt outstanding.

For 2009, net assets of the Sanitary Landfill increased by \$389 thousand as operating revenues continued to be greater than operating expenses. However, charges for services decreased in 2009 due to less tonnage received by the landfill. As a result of substantial flooding in the area in 2007, whole structures were demolished and discarded at the landfill in 2008. Charges for services also decreased in 2009 from the expiration of the annual base rent in accordance with the agreement between the County and Santek.

Budgetary Highlights

As mandated by State statute, the County Commissioners adopt the annual operating budget for the County on the first day of January. For the General Fund, changes from the original to the final budget have been minimal. Fluctuations in growth and diversity have typically not occurred in Crawford County allowing departmental managers the ability to consistently predict revenues and expenditures. The County does not increase its estimated revenues unless actual revenues realized exceed original estimates and additional spending authority is necessary.

Actual revenues in the General Fund were higher than the final budget by 3 percent. The most material change was an increase in interest revenue due to certain investments maturing. Total expenditures for the General Fund were 12 percent less than the final budget as departments reduced costs due to the economic conditions within the County.

Capital Assets and Debt Administration

Capital Assets - The County's investment in capital assets for governmental and business-type activities as of December 31, 2009, was \$35,429 thousand (net of accumulated depreciation and related debt). This investment in capital assets includes land, buildings, improvements, equipment, roads, and bridges.

Note 10 provides information on capital asset activity during 2009. During 2009, various roads were resurfaced and bridges improved bringing the infrastructure investment of the County to \$30,552 thousand. Additions to capital assets consisted of data processing equipment, heavy-duty vehicles for the Engineer, and vehicles for the Sheriff and the Solid Waste and Recycling Department.

Long-Term Debt - At December 31, 2009, the County's overall long-term obligations included \$14,783 thousand in general obligation bonds and \$43 thousand in OPWC loans. Of this amount, \$3,737 thousand is expected to be repaid from business-type activities.

Citing sound financial operations, healthy reserves, a moderately-sized agricultural base, and an affordable debt burden with limited future borrowing, Moody's Investors Service and Standard and Poor's have assigned an underlying rating of A3 and A, respectively. However, a AAA credit rating was listed on the bonds since the County purchased insurance from AMBAC Indemnity Corporation guaranteeing bond payments.

In addition to the bonded debt and OPWC loan, the County's long-term obligations include compensated absences. Additional information on the County's long-term debt and landfill lease agreement can be found in Notes 16 and Note 19 of this report, respectively.

Economic Factors

Crawford County is primarily a rural community with a significant agricultural and durable goods manufacturing presence. The County's tax base decreased to \$1.9 billion in 2009 or an 11 percent drop since 2005 mostly due to the State of Ohio requiring the phasing out of tangible personal property in the last few years.

The unemployment rate for the County was 14.2 percent as of year end, which increased from a rate of 8.7 percent a year ago. This rate exceeded the State's average unemployment rate of 10.2 percent and the national average of 9.3 percent.

The General Fund balance at December 31, 2009, was \$2,646,981, which is a 33 percent decrease from the 2008 balance of \$3,972,566. In 2009, general operating revenues exceeded department expenditures by approximately 4 percent; however, transfers from the General Fund contributed to the decrease in fund balance for 2009. Transfers were made to the Jail Operation Levy Fund to offset a decline in sales tax revenues.

The County's debt burden, which represents 1 percent of the estimated value of real property in the County, remains modest. The County does not plan to construct or make any major renovations to County facilities in the near future.

*Reconciliation of Total Governmental Fund Balances
to Net Assets of Governmental Activities
December 31, 2009*

Total Governmental Fund Balances \$14,818,744

***Amounts reported for governmental activities on the
statement of net assets are different because of the following:***

Capital assets used in governmental activities are not financial resources and, therefore, are not reported in the funds. 44,813,058

Other long-term assets are not available to pay for current period expenditures and, therefore, are deferred in the funds:

Accounts Receivable	86,862	
Accrued Interest Receivable	83,948	
Sales Taxes Receivable	744,211	
Due from Other Governments	3,719,287	
Special Assessments Receivable	110,503	
Interfund Receivable	247,889	
Property Taxes Receivable	297,120	
		5,289,820

Unamortized issuance costs represent deferred charges which do not provide current financial resources and, therefore, are not reported in the funds. 184,578

The internal service fund is used to charge the costs of health care benefits to individual funds. The assets and liabilities of the internal service fund are included as governmental activities on the statement of net assets. 899,655

Some liabilities are not due and payable in the current period and, therefore, are not reported in the funds:

Accrued Interest Payable	(42,066)	
General Obligation Bonds Payable	(11,089,160)	
Compensated Absences Payable	(1,122,454)	
		(12,253,680)

Net Assets of Governmental Activities \$53,752,175

*Reconciliation of Statement of Revenues, Expenditures, and Changes in Fund Balances
of Governmental Funds to Statement of Activities
For the Year Ended December 31, 2009*

Net Changes in Fund Balances - Total Governmental Funds (\$1,865,333)

***Amounts reported for governmental activities on the
statement of activities are different because of the following:***

Governmental funds report capital outlays as expenditures. However, on the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeded capital outlays in the current year:

Capital Outlay - Depreciable Capital Assets	1,757,589	
Depreciation	<u>(2,602,627)</u>	(845,038)

The book value of capital assets is removed from the capital asset account on the statement of net assets when disposed of resulting in a loss on disposal of capital assets on the statement of activities. (1,204)

Revenues on the statement of activities that do not provide current financial resources are not reported as revenues in governmental funds:

Property Taxes	83,855	
Sales Taxes	(141,086)	
Special Assessments	38,534	
Charges for Services	161,096	
Intergovernmental	(149,092)	
Interest	25,251	
Other	<u>70</u>	18,628

Repayment of principal is an expenditure in the governmental funds but the repayment reduces long-term liabilities on the statement of net assets. 585,000

Premiums are reported as revenues when the debt is first issued; however, these amounts are deferred and amortized on the statement of activities. 13,249

Interest is reported as an expenditure when due in the governmental funds but is accrued on outstanding debt on the statement of net assets. Issuance costs are reported as an expenditure when paid in the governmental funds. Issuance costs and accounting losses are amortized over the life of the debt on the statement of activities.

Amortization of Issuance Costs	(14,413)	
Annual Accretion	(29,164)	
Accrued Interest Payable	2,031	
Amortization of Accounting Loss	<u>(23,314)</u>	(64,860)

The internal service fund is used to charge the costs of health care benefits to individual funds. Governmental fund expenditures and related internal service fund revenues are eliminated. The net revenue of the internal service fund is allocated among the governmental activities. (420,601)

Compensated absences reported on the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds. (39,848)

Change in Net Assets of Governmental Activities (\$2,620,007)

For the Year Ended December 31, 2009

Note 1 - Reporting Entity

Crawford County, Ohio (County) was created in 1826. The County is governed by a board of three commissioners elected by the voters of the County. Other officials elected by the voters of the County that manage various segments of the County's operations are the Auditor, Treasurer, Recorder, Clerk of Courts, Coroner, Engineer, Prosecutor, Sheriff, Common Pleas Court Judge, Probate/Juvenile Court Judge, and Municipal Court Judge. Although the elected officials manage the internal operations of their respective departments, the County Commissioners authorize expenditures as well as serve as the budgeting and taxing authority, contracting body, and chief administrators of public services for the County, including each of these departments.

Primary Government

A reporting entity is composed of the primary government, component units, and other organizations that are included to ensure the financial statements of the County are not misleading. The primary government of the County consists of all funds, departments, boards, and agencies that are not legally separate from the County. For Crawford County, this includes the Board of Developmental Disabilities (DD), the Job and Family Services Department, the Crawford County Solid Waste Management Board, the Crawford County Emergency Management Agency, and all departments and activities that are directly operated by the elected County officials.

Component units are legally separate organizations for which the County is financially accountable. The County is financially accountable for an organization if the County appoints a voting majority of the organization's governing board and (1) the County is able to significantly influence the programs or services performed or provided by the organization; or (2) the County is legally entitled to or can otherwise access the organization's resources; the County is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the County is obligated for the debt of the organization. Component units may also include organizations for which the County approves the budget, the issuance of debt, or the levying of taxes.

The component unit column on the financial statements identifies the financial data of the County's discretely presented component unit, Waycraft Workshop, Inc. It is reported separately to emphasize that it is legally separate from the County.

Waycraft Workshop, Inc. - Waycraft Workshop, Inc. (Workshop) is a legally separate not-for-profit corporation served by a self-appointing board of trustees. The Workshop, under a contractual agreement with the Crawford County Board of Developmental Disabilities, provides sheltered employment for mentally retarded or handicapped adults in Crawford County. The Crawford County Board of DD provides the Workshop with staff salaries, transportation, equipment (except that used directly in the production of goods or rendering of services), staff to administer and supervise training programs, and other funds as necessary for the operation of the Workshop. Based on the significant services and resources provided by the County to the Workshop and the Workshop's sole purpose of providing assistance to the retarded and handicapped adults of Crawford County, the Workshop is reflected as a component unit of Crawford County. The Workshop operates on a fiscal year ending December 31. Separately issued financial statements can be obtained from Waycraft Workshop, Inc., Bucyrus, Ohio.

Crawford County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2009

As the custodian of public funds, the Treasurer invests all public moneys held on deposit in the county treasury. In the case of the separate agencies, boards, and commissions listed below, the County serves as fiscal agent but is not financially accountable for these organizations. Accordingly, the activity of the following organizations is presented as agency funds within the County's financial statements:

The Crawford County General Health District is governed by a five member board of health which oversees the operation of the health district and is elected by a regional advisory council composed of township trustees, mayors of participating municipalities, and the County Commissioners. The Board adopts its own budget, hires and fires its own staff, and operates autonomously from the County.

The Crawford County Soil and Water Conservation District is statutorily created as a separate and distinct political subdivision of the State. The five supervisors of the Soil and Water Conservation District are elected by the residents and landowners of the District. The supervisors are authorized to contract and sue on behalf of the District. The supervisors adopt their own budget, authorize District expenditures, hire and fire staff, and do not rely on the County to finance deficits.

The Crawford County Park District is statutorily created as a separate and distinct political subdivision of the State. The probate judge appoints three commissioners who are authorized to contract and sue on behalf of the District. The Commissioners adopt their own budget, authorize District expenditures, hire and fire staff, and do not rely on the County to finance deficits. The Crawford County Park District is a related organization to the County. (See Note 21)

The Regional Planning Commission is statutorily created as a separate and distinct political subdivision of the State. The Commission consists of representatives from the county, each township, and each municipality. The Commission members adopt their own budget, authorize Commission expenditures, hire and fire staff, and do not rely on the County to finance deficits.

Northland Homes and Properties, Inc. is a joint venture among the Crawford County Board of DD and two other county DD boards, and the Crawford-Marion Alcohol, Drug Addiction, and Mental Health Services Board is a joint venture between the Crawford County Board of Mental Health and the Marion County Board of Mental Health. (See Note 22)

The County also participates in the County Commissioners Association of Ohio Service Corporation, an insurance purchasing pool. (See Note 23)

Note 2 - Summary of Significant Accounting Policies

The financial statements of Crawford County have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The County also applies Financial Accounting Standards Board (FASB) Statements and Interpretations issued on or before November 30, 1989, to its governmental and business-type activities and to its proprietary funds provided they do not conflict with or contradict GASB pronouncements. The County has elected not to apply FASB Statements and Interpretations issued after November 30, 1989, to its business-type activities or to its proprietary funds. Following are the more significant of the County's accounting policies.

Crawford County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2009

A. Basis of Presentation

The County's basic financial statements consist of government-wide financial statements, including a statement of net assets and a statement of activities, and fund financial statements which provide a more detailed level of financial information.

Government-Wide Financial Statements

The statement of net assets and the statement of activities display information about the County as a whole. These statements include the financial activities of the primary government, except for fiduciary funds. The statements distinguish between those activities of the County that are governmental in nature and those that are considered business-type activities. The activity of the internal service fund is eliminated to avoid "doubling up" revenues and expenses.

The statement of net assets presents the financial condition of the governmental and business-type activities of the County at year end. The statement of activities presents a comparison between direct expenses and program revenues for each program or function of the County's governmental activities and business-type activities. Direct expenses are those that are specifically associated with a service, program, or department and, therefore, clearly identifiable to a particular function. Program revenues include charges paid by the recipient of the goods or services offered by the program, grants and contributions that are restricted to meeting the operational or capital requirements of a particular program, and interest that is required to be used to support a particular program. Revenues which are not classified as program revenues are presented as general revenues of the County, with certain limited exceptions. The comparison of direct expenses with program revenues identifies the extent to which each governmental program or business activity is self-financing or draws from the general revenues of the County.

Fund Financial Statements

During the year, the County segregates transactions related to certain County functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the County at this more detailed level. The focus of governmental and enterprise fund financial statements is on major funds. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service fund is presented in a single column on the face of the proprietary fund financial statements. Fiduciary funds are reported by type.

B. Fund Accounting

The County uses funds to maintain its financial records during the year. A fund is defined as a fiscal and accounting entity with a self-balancing set of accounts. There are three categories of funds: governmental, proprietary, and fiduciary.

Crawford County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2009

Governmental Funds

Governmental funds are those through which most governmental functions of the County are financed. Governmental fund reporting focuses on the sources, uses, and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purpose for which they may or must be used. Current liabilities are assigned to the fund from which they will be paid. The difference between governmental fund assets and liabilities is reported as fund balance. The following are the County's major governmental funds:

General Fund - The General Fund accounts for all financial resources, except those required to be accounted for in another fund. The General Fund balance is available to the County for any purpose provided it is expended or transferred according to the general laws of Ohio.

Auto License and Gas Tax Fund - The fund accounts for revenue derived from the sale of motor vehicle licenses, gasoline taxes, and interest. Expenditures are restricted by state law to county road and bridge repair/improvement programs.

Child Welfare Fund - The fund accounts for property taxes, various state and federal grants and transfers from the General Fund. These moneys are used to provide services to children pursuant to Chapter 5153 of the Ohio Revised Code.

County Home Fund - The fund accounts for a county-wide property tax levy and moneys received from residents for operational costs of the County Home.

Job and Family Services Fund - The fund accounts for various state and federal grants as well as transfers from the General Fund used to provide public assistance to general relief recipients and pay their providers of medical assistance, and for certain public social services.

Jail Operation Levy Fund - The fund accounts for sales tax revenue used for the operation of the County Jail.

Developmental Disabilities Fund - The fund accounts for the operation of a school and the costs of administering a workshop for the mentally retarded and developmentally disabled. Revenue sources are a county-wide property tax levy and state and federal grants.

The other governmental funds of the County account for grants and other resources whose use is restricted for a particular purpose.

Proprietary Funds

Proprietary fund reporting focuses on the determination of operating income, changes in net assets, financial position, and cash flows.

Enterprise Funds - Enterprise funds may be used to account for any activity for which a fee is charged to external users of goods or services. The following are the County's major enterprise funds:

Sewer Fund - The fund accounts for the provision of sewer and water services.

Sanitary Landfill Fund - The fund accounts for charges for services and equipment rental charges collected for the operation of the sanitary landfill.

Crawford County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2009

Internal Service Fund - The internal service fund accounts for the financing of services provided by one department or agency to other departments or agencies of the County on a cost-reimbursement basis. The County's internal service fund accounts for an employee health benefits self-insurance plan.

Fiduciary Funds

Fiduciary fund reporting focuses on net assets and changes in net assets. The fiduciary fund category is split into four classifications: pension trust funds, investment trust funds, private purpose trust funds, and agency funds. Trust funds are used to account for assets held by the County under a trust agreement for individuals, private organizations, or other governments and are not available to support the County's own programs. The County's private purpose trust funds account for moneys held for county home residents for their personal expenses and moneys held in trust by the probate court. The County's agency funds account for assets held by the County for political subdivisions in which the County acts as fiscal agent and for taxes, state-levied shared revenues, and fines and forfeitures collected and distributed to other political subdivisions.

C. Measurement Focus

Government-Wide Financial Statements

The government-wide financial statements are prepared using a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of the County are included on the statement of net assets. The statement of activities presents increases (e.g. revenues) and decreases (e.g. expenses) in total net assets.

Fund Financial Statements

All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities are generally included on the balance sheet. The statement of revenues, expenditures, and changes in fund balances reflects the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements, therefore, include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the fund financial statements for governmental funds.

Like the government-wide financial statements, the proprietary funds are accounted for using a flow of economic resources measurement focus. All assets and all liabilities associated with the operation of these funds are included on the statement of fund net assets. The statement of revenues, expenses, and changes in fund net assets presents increases (e.g., revenues) and decreases (e.g., expenses) in total net assets. The statement of cash flows reflects how the County finances and meets the cash flow needs of its proprietary activities.

The private purpose trust funds are accounted for using a flow of economic resources measurement focus.

Crawford County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2009

D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting; proprietary funds and fiduciary funds use the accrual basis of accounting. Differences in the accrual and modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

Revenues - Exchange and Nonexchange Transactions

Revenues resulting from exchange transactions, in which each party gives and receives essentially equal value, are recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded in the year in which the resources are measurable and become available. Available means the resources will be collected within the current year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current year. For the County, available means expected to be received within thirty-one days after year end.

Nonexchange transactions, in which the County receives value without directly giving equal value in return, include property taxes, sales taxes, grants, entitlements, and donations. On the accrual basis, revenue from property taxes is recognized in the year for which the taxes are levied. Revenue from sales taxes is recognized in the year in which the sales are made. Revenue from grants, entitlements, and donations is recognized in the year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted; matching requirements, in which the County must provide local resources to be used for a specified purpose; and expenditure requirements, in which the resources are provided to the County on a reimbursement basis. On the modified accrual basis, revenue from nonexchange transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered both measurable and available at year end: sales taxes, charges for services, fines and forfeitures, state-levied locally shared taxes (including gasoline tax and motor vehicle license fees), grants, interest, and rent.

Deferred Revenues

Deferred revenues arise when assets are recognized before the revenue recognition criteria have been satisfied.

Property taxes for which there was an enforceable legal claim at December 31, 2009, but were levied to finance 2010 operations, have been recorded as deferred revenue. Grants and entitlements received before the eligibility requirements were met have also been recorded as deferred revenue.

On governmental fund financial statements, receivables that were not collected within the available period are recorded as deferred revenue.

Expenses/Expenditures

On the accrual basis, expenses are recognized at the time they are incurred. The measurement focus of governmental fund accounting is on decreases in net financial resources (expenditures) rather than expenses. Expenditures are generally recognized in the accounting period in which the related fund liability is incurred, if measurable. Allocations of cost, such as depreciation and amortization, are not recognized in governmental funds.

E. Budgetary Process

All funds, except agency funds, are legally required to be budgeted and appropriated. The major documents prepared are the certificate of estimated resources and the appropriations resolution, both of which are prepared on the budgetary basis of accounting. The certificate of estimated resources establishes a limit on the amount the County Commissioners may appropriate. The appropriations resolution is the County Commissioner's authorization to spend resources and sets annual limits on expenditures plus encumbrances at the level of control selected by the County Commissioners. The legal level of control has been established by the County Commissioners at the fund, program, department, and object level for all funds. Budgetary information for the Law Enforcement Trust special revenue fund and the Probate Trust private purpose trust fund is not reported because it is not included in the entity for which the "appropriated budget" is adopted or the fund had no activity during the year. The County does not budget for advances; rather, the outstanding advance balances at the beginning of the year are included within the creditor fund and excluded from the debtor fund amounts available for appropriation. These balances are reflected as prior year outstanding advances on the budgetary schedules.

The certificate of estimated resources may be amended during the year if projected increases or decreases in revenue are identified by the County Auditor. The amounts reported as the original budgeted amounts on the budgetary statements reflect the amounts on the certificate of estimated resources when the original appropriations were adopted. The amounts reported as the revised budgeted amounts on the budgetary statements reflect the amounts on the amended certificate of estimated resources in effect at the time final appropriations were passed by the County Commissioners.

The appropriations resolution is subject to amendment throughout the year with the restriction that appropriations cannot exceed estimated resources. The amounts reported as the original budgeted amounts reflect the first appropriations resolution for that fund that covered the entire year, including amounts automatically carried forward from prior years. The amounts reported as the revised budgeted amounts represent the final appropriation amounts passed by the County Commissioners during the year.

F. Cash and Investments

To improve cash management, cash received by the County is pooled and invested. Individual fund integrity is maintained through County records. Interest in the pool is presented as "Equity in Pooled Cash and Cash Equivalents".

Cash and cash equivalents that are held separately within departments of the County, and not included in the County treasury, are recorded as "Cash and Cash Equivalents in Segregated Accounts". Cash and cash equivalents that are held separately with Clearwater Council of Governments are recorded as "Cash and Cash Equivalents with Fiscal Agent".

Crawford County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2009

The County's investments included nonnegotiable certificates of deposit, federal agency securities, and STAR Ohio. The County's investments are reported at fair value, except for nonnegotiable certificates of deposit which are reported at cost. Fair value is based on quoted market price. STAR Ohio is an investment pool, managed by the State Treasurer's Office, which allows governments within the State to pool their funds for investment purposes. STAR Ohio is not registered with the SEC as an investment company, but does operate in a manner consistent with Rule 2a7 of the Investment Company Act of 1940. Investments in STAR Ohio are valued at STAR Ohio's share price, which is the price the investment could be sold for on December 31, 2009.

Interest earnings are allocated to County funds according to State statutes, grant requirements, or debt related restrictions. Interest revenue credited to the General Fund during 2009 was \$459,370, which includes \$454,549 assigned from other County funds.

Investments of the cash management pool and investments with an original maturity of three months or less at the time of purchase are presented on the financial statements as cash equivalents. Investments with an initial maturity of more than three months that were not purchased from the pool are reported as investments.

G. Prepaid Items

Payments made to vendors for services that will benefit periods beyond December 31, 2009, are recorded as prepaid items using the consumption method by recording a current asset for the prepaid amount and reflecting the expenditure/expense in the year in which services are consumed.

H. Inventory

Inventory is presented at cost on a first-in, first-out basis and is expended/expensed when used. Inventory consists of expendable supplies held for consumption.

I. Unamortized Issuance Costs/Bond Premium/Accounting Gain or Loss

On government-wide financial statements, issuance costs are deferred and amortized over the term of the bonds using the bonds outstanding method, which approximates the effective interest method. Issuance costs are recorded as deferred charges and are generally paid from bond proceeds.

Bond premiums are presented as an addition to the face amount of the bonds.

For advance refundings resulting in the defeasance of debt, the difference between the reacquisition price and the net carrying amount of the old debt is deferred and amortized as a component of interest expense. This accounting gain or loss is amortized over the remaining life of the old debt or the life of the new debt, whichever is shorter, and is presented as an addition to or a reduction of the face amount of the new debt.

On the governmental fund financial statements, issuance costs and bond premiums are recognized in the period in which the debt is first issued.

J. Capital Assets

General capital assets are capital assets which are associated with and generally arise from governmental activities. They generally result from expenditures in governmental funds. General capital assets are reported in the governmental activities column on the government-wide statement of net assets but are not reported on the fund financial statements. Capital assets used by the proprietary funds are reported in both the business-type activity column on the government-wide statement of net assets and in the respective funds.

All capital assets are capitalized at cost and updated for additions and reductions during the year. Donated capital assets are recorded at their fair market value on the date donated. The County maintains a capitalization threshold of ten thousand dollars. Improvements are capitalized; the costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are not capitalized. Interest incurred during the construction of proprietary fund capital assets is also capitalized.

All capital assets are depreciated, except for land, land and landfill improvements, and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the County's historical records of necessary improvements and replacement. Depreciation is computed using the straight-line method over the following useful lives:

Description	Governmental Activities Estimated Lives	Business-Type Activities Estimated Lives
Buildings and Building Improvements	40 years	40 years
Improvements Other Than Buildings	40 years	N/A
Equipment	5 to 10 years	3 to 25 years
Vehicles	5 to 10 years	10 years
Furniture/Fixtures	10 years	10 to 20 years
Infrastructure	10 to 50 years	40 years

Landfill cells are depreciated based on the tonnage received each year. The County's infrastructure consists of roads, bridges, storm and sanitary sewer lines, and water lines. All infrastructure was recorded on the County's financial statements based on estimated historical cost at the date of original construction or improvement, including infrastructure acquired prior to 1980.

K. Interfund Receivables/Payables

On fund financial statements, receivables and payables resulting from short-term interfund loans or interfund services provided and used are classified as "Interfund Receivables/Payables". Interfund balances within governmental activities and within business-type activities are eliminated on the government-wide statement of net assets. The only interfund balances which remain on the government-wide statement of net assets are those between governmental and business-type activities. These amounts are reflected as "Internal Balances".

L. Compensated Absences

Vacation benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable the County will compensate the employees for the benefits through paid time off or some other means. The County records a liability for accumulated unused vacation time when earned for all employees with more than one year of service.

Sick leave benefits are accrued as a liability using the vesting method. The liability includes the employees who are currently eligible to receive termination benefits and those the County has identified as probable of receiving payment in the future. The amount is based on accumulated sick leave and employee wage rates at year end taking into consideration any limits specified in the County's termination policy. The County records a liability for accumulated unused sick leave for employees who are at least fifty years of age having ten years of service with the County or fifty-five years of age with five years of service with the County.

The entire compensated absences liability is reported on the government-wide financial statements.

On governmental fund financial statements, compensated absences are recognized as liabilities and expenditures to the extent payments come due each period upon the occurrence of employee resignations and retirements. These amounts are recorded in the account "Matured Compensated Absences Payable" in the fund from which the employees who have accumulated unpaid leave are paid. For proprietary funds, the entire amount of compensated absences is reported as a fund liability.

M. Accrued Liabilities and Long-Term Obligations

All payables, accrued liabilities, and long-term obligations are reported on the government-wide financial statements. All payables, accrued liabilities, and long-term obligations payable from the proprietary funds are reported on the proprietary fund financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources are reported as obligations of the funds. However, bonds and compensated absences that are paid from governmental funds are reported as liabilities on the fund financial statements only to the extent that they are due for payment during the current year.

N. Net Assets

Net assets represent the difference between assets and liabilities. Net assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction, or improvement of those assets. Net assets are reported as restricted when there are limitations imposed on their use either through constitutional provisions or enabling legislation adopted by the County or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. Net assets restricted for other purposes include activities of the Auditor, Treasurer, Prosecutor, Recorder, and Courts. The County's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted net assets are available.

Crawford County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2009

O. Fund Balance Reserves

The County reserves those portions of fund balance which are legally segregated for a specific future use or which do not represent available expendable resources and, therefore, are not available for appropriation or expenditure. Fund balance reserves have been established for encumbrances and loans receivables.

P. Operating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the County, these revenues are charges for services, rent, and other revenues for sewer and sanitary landfill services, as well as charges for services in the internal service fund for premiums charged to other funds. Operating expenses are the necessary costs incurred to provide the service that is the primary activity of the fund. Revenues and expenses not meeting these definitions are reported as nonoperating.

Q. Internal Activity

Transfers between governmental and business-type activities on the government-wide financial statements are reported in the same manner as general revenues.

Internal allocations of overhead expenses from one function to another or within the same function are eliminated on the statement of activities. Payments for interfund services provided and used are not eliminated.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after nonoperating revenues/expenses in proprietary funds. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

R. Estimates

The preparation of the financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

Note 3 - Change in Accounting Principles

For 2009, the County has implemented Governmental Accounting Standards Board (GASB) Statement No. 53, "Accounting and Financial Reporting for Derivative Instruments", GASB Statement No. 55, "The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments", GASB Statement No. 56, "Codification of Accounting and Financial Reporting Guidance Contained in the AICPA Statements on Auditing Standards", Statement No. 57, "OPEB Measurements by Agent Employers and Agent Multiple-Employer Plans", and Statement No. 58, "Accounting and Financial Reporting for Chapter 9 Bankruptcies".

Crawford County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2009

GASB Statement No. 53 addresses the recognition, measurement, and disclosure of information regarding derivative instruments entered into by state and local governments. It requires governments to measure derivative instruments, with the exception of synthetic guaranteed investment contracts that are fully benefit-responsive, at fair value in the economic resources measurement focus financial statements. The implementation of this statement did not result in any changes to the financial statements.

GASB Statement No. 55 incorporates the hierarchy of generally accepted accounting principles (GAAP) for state and local governments into the GASB authoritative literature. The GAAP hierarchy consists of the sources of accounting principles used in the preparation of financial statements and the framework for selecting those principles. The implementation of this statement did not result in any changes to the financial statements.

GASB Statement No. 56 incorporates accounting and financial reporting guidance previously only contained in the American Institute of Certified Public Accountants' (AICPA) auditing literature into the GASB's accounting and financial reporting literature. This guidance addresses related party transactions, going concern considerations, and subsequent events from the AICPA literature. The implementation of this statement did not result in any changes to the financial statements.

GASB Statement No. 57 addresses issues related to the use of the alternative measurement method and the frequency and timing of measurements by employers that participate in agent multiple-employer other postemployment benefit (OPEB) plans (that is, agent employers). The requirements in this statement will allow more agent employers to use the alternative measurement method to produce actuarially based information for financial reporting and clarify that OPEB measures reported by agent multiple-employer OPEB plans and the participating employers should be determined at the same minimum frequency and as of a common date to improve the consistency of reporting with regard to funded status and funding progress information. The implementation of this statement did not result in any changes to the financial statements.

GASB Statement No. 58 provides accounting and financial reporting guidance for governments that have petitioned for protection from creditors by filing for bankruptcy under Chapter 9 of the United States Bankruptcy Code. The requirements in this statement will provide more consistent recognition, measurement, display, and disclosure guidance for governments that file for Chapter 9 bankruptcy. The implementation of this statement did not result in any changes to the financial statements.

Note 4 - Accountability

The following funds had deficit fund balances/net assets as of December 31, 2009.

	Deficit Fund Balances/ Net Assets
Special Revenue Funds	
County Home	\$56,389
Jail Operating Levy	144,159
Economic Development	213,685
Law Enforcement Overtime Project	4,785

(continued)

Crawford County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2009

Operation Road Patrol	\$128,316
Capital Projects Funds	
Westmoor Sewer Construction	164,323
Enterprise Fund	
Sanitary Landfill	862,313

The deficits in the special revenue funds resulted from adjustments for accrued liabilities. The General Fund provides transfers when cash is required, not when accruals occur.

The deficit in the Westmoor Sewer Construction fund is the result of expenditures exceeding available resources. Once engineering and project estimates are complete, the County will assess the property owners.

The deficit in the Sanitary Landfill fund is the result of accumulated operating losses. The County has entered into a lease agreement for the Sanitary Landfill with Santek Environmental. This was done in an attempt to eliminate the deficit net assets and to control the General Fund financial liability for the Sanitary Landfill operation.

Note 5 - Budgetary Basis of Accounting

While reporting financial position, results of operations, and changes in fund balances on the basis of generally accepted accounting principles (GAAP), the budgetary basis as provided by law is based upon accounting for certain transactions on a basis of cash receipts, disbursements, and encumbrances. The Statements of Revenues, Expenditures, and Changes in Fund Balance - Budget (Non-GAAP Basis) and Actual are presented on the budgetary basis to provide a meaningful comparison of actual results with the budget. The major differences between the budget basis and the GAAP basis are as follows:

1. Revenues are recorded when received in cash (budget basis) as opposed to when susceptible to accrual (GAAP basis).
2. Expenditures are recorded when paid in cash (budget basis) as opposed to when the liability is incurred (GAAP basis).
3. Encumbrances are treated as expenditures (budget basis) rather than as a reservation of fund balance (GAAP basis).

Crawford County, Ohio

Note 6 - Deposits and Investments

Moneys held by the County are classified by State statute into two categories. Active moneys are public moneys determined to be necessary to meet current demands upon the County treasury. Active moneys must be maintained either as cash in the County treasury, in commercial accounts payable or withdrawable on demand, including negotiable order of withdrawal (NOW) accounts, or in money market deposit accounts.

Crawford County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2009

Moneys held by the County, which are not considered active, are classified as inactive. Inactive moneys may be deposited or invested in the following securities provided a written investment policy has been filed with the Ohio Auditor of State.

1. United States treasury bills, bonds, notes, or any other obligation or security issued by the United States Treasury, or any other obligation guaranteed as to principal and interest by the United States, or any book entry zero-coupon United States treasury security that is a direct obligation of the United States;
2. Bonds, notes, debentures, or any other obligation or security issued by any federal government agency or instrumentality including, but not limited to, the Federal National Mortgage Association, Federal Home Loan Bank, Federal Farm Credit Bank, Federal Home Loan Mortgage Corporation, Government National Mortgage Association, and Student Loan Marketing Association. All federal agency securities shall be direct issuances of federal government agencies or instrumentalities;
3. Written repurchase agreements in the securities listed above;
4. Bonds and other obligations of the State of Ohio or its political subdivisions, provided that such political subdivisions are located wholly or partly within the County;
5. Time certificates of deposit or savings or deposit accounts including, but not limited to, passbook accounts;
6. No-load money market mutual funds consisting exclusively of obligations described in division (1) or (2);
7. The State Treasurer's investment pool (STAR Ohio);
8. Securities lending agreements in which the County lends securities and the eligible institution agrees to exchange similar securities, or cash, equal value for equal value;
9. Up to twenty-five percent of the County's average portfolio in either of the following:
 - a. commercial paper notes in entities incorporated under the laws of Ohio or any other State that have assets exceeding five hundred million dollars rated at the time of purchase, which are rated in the highest qualification established by two nationally recognized standard rating services, which do not exceed 10 percent of the value of the outstanding commercial paper of the issuing corporation, and which mature within two hundred seventy days after purchase;
 - b. bankers acceptances eligible for purchase by the federal reserve system and which mature within one hundred eighty days after purchase;
10. Up to 15 percent of the County's average portfolio in notes issued by United States corporations or by depository institutions that are doing business under authority granted by the United States provided that the notes are rated in the second highest or higher category by at least two nationally recognized standard rating services at the time of purchase and the notes mature within two years from the date of purchase;
11. No-load money market mutual funds rated in the highest category at the time of purchase by at least one nationally recognized standard rating service consisting exclusively of obligations guaranteed by the United States, securities issued by a federal government agency or instrumentality, and/or highly rated commercial paper; and

Crawford County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2009

12. Up to 1 percent of the County’s average portfolio in debt interests rated at the time of purchase in the three highest categories by two nationally recognized standard rating services and issued by foreign nations diplomatically recognized by the United States government.

Protection of the County’s deposits is provided by the Federal Deposit Insurance Corporation (FDIC), by eligible securities pledged by the financial institution as security for repayment, by surety company bonds deposited with the Treasurer by the financial institution, or by a single collateral pool established by the financial institution to secure the repayment of all public moneys deposited with the institution.

Investments in stripped principal or interest obligations, reverse repurchase agreements, and derivatives are prohibited. The issuance of taxable notes for the purpose of arbitrage, the use of leverage, and short selling are also prohibited. An investment must mature within five years from the date of purchase, unless matched to a specific obligation or debt of the County, and must be purchased with the expectation that it will be held to maturity.

Investments may only be made through specified dealers and institutions. Payment for investments may be made only upon delivery of the securities representing the investments to the Treasurer or qualified trustee or, if the securities are not represented by a certificate, upon receipt of confirmation of transfer from the custodian.

Deposits

Custodial credit risk for deposits is the risk that in the event of bank failure, the County will not be able to recover deposits or collateral securities that are in the possession of an outside party. At year end, \$6,750,000 of the County’s bank balance of \$19,420,370 was exposed to custodial credit risk because it was uninsured and uncollateralized. Although all State statutory requirements for the deposit of money had been followed, noncompliance with Federal requirements could potentially subject the County to a successful claim by the FDIC.

The County has no deposit policy for custodial credit risk beyond the requirements of State statute. Ohio law requires that deposits be either insured or be protected by eligible securities pledged to and deposited either with the County or a qualified trustee by the financial institution as security for repayment, or by a collateral pool of eligible securities deposited with a qualified trustee and pledged to secure the repayment of all public moneys deposited in the financial institution whose market value at all times be at least 105 percent of the deposits being secured.

Investments

As of December 31, 2009, the County had the following investments:

	Total	Maturities	
		Less Than 6 Months	1 Year to 3 Years
Federal Farm Credit Bank Notes	\$1,023,940	\$0	\$1,023,940
Federal Home Loan Bank Notes	1,016,796	1,016,796	0
STAR Ohio	40,366	40,366	0
Total Investments	\$2,081,102	\$1,057,162	\$1,023,940

Crawford County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2009

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The investment policy restricts the Treasurer from investing in any securities other than those identified in the Ohio Revised Code and that all investments must mature within five years from the date of investment unless matched to a specific obligation or debt of the County.

The Federal Farm Credit Bank Bonds and Federal Home Loan Bank Bonds carry a rating of Aaa by Moodys. STAR Ohio carries a rating of AAA by Standard and Poor's. The County has no policy dealing with credit risk beyond the requirements of State statute. Ohio law requires that STAR Ohio maintain the highest rating provided by at least one nationally recognized standard rating service.

The County places no limit on the amount it may invest in any one issuer. The following table indicates the percentage of each investment to the total portfolio:

	Fair Value	Percentage of Portfolio
Federal Farm Credit Bank Notes	\$1,023,940	49.20%
Federal Home Loan Bank Notes	1,016,796	48.86

Note 7 - Receivables

Receivables at December 31, 2009, consisted of accounts (billings for user charged services, including unbilled utility services), accrued interest, sales taxes, grants, entitlements, shared revenues, special assessments, interfund, property taxes, and loans. All receivables are expected to be collected within one year, except special assessments, property taxes, and loans. Special assessments, in the amount of \$53,857, will not be received within one year. At December 31, 2009, the amount of delinquent special assessments was \$53,857. Property taxes, although ultimately collectible, include some portion of delinquencies that will not be collected within one year.

Loans receivable represent low interest loans for development projects granted to eligible County businesses under the Federal Community Development Block Grant program. The loans have an annual interest rate of 3.75 to 5.25 percent and are to be repaid over a period of ten years. New loans were issued in 2009, in the amount of \$60,000. During 2009, principal, in the amount of \$3,145, was repaid. Loans outstanding at December 31, 2009, were \$56,855. Loans receivable, in the amount of \$51,889, will not be received within one year.

Receivables recorded on the County's financial statements are recorded to the extent the amounts are determined material and substantiated, not only by supporting documentation but also by a reasonable systematic method of determining their existence, completeness, valuation, and collectibility. Using these criteria, the County has elected to not record child support arrearages in the agency funds. These amounts, while potentially significant, are not considered measurable and, because collections are often significantly in arrears, the County is unable to determine a reasonable value.

Note 8 - Permissive Sales and Use Tax

In 1978, the County Commissioners, by resolution, imposed a one-half of one percent tax on all retail sales made in the County, except sales of motor vehicles, and on the storage, use, or consumption of tangible personal property, including motor vehicles not subject to the sales tax. In February 1993, the County Commissioners, by resolution, imposed an additional one-half of one percent tax on all retail sales pursuant to Sections 5739.02 and 5741.02 of the Ohio Revised Code. In May 1994, voters approved a one-half of one percent tax on retail sales pursuant to Sections 5739.02 and 5741.02 of the Ohio Revised Code. This tax commenced July 1, 1994, for a period of twenty-five years. Proceeds shall be used for constructing, equipping, furnishing, and operating a new correctional facility and for paying principal, interest, premium, and costs associated with the issuance of debt. As required by State statute, the County Commissioners established how the sales tax proceeds would be allocated prior to the election. Thus, as long as the County has outstanding debt, sales tax proceeds will be prorated based on this debt.

The total sales tax percentage is now one and one-half percent with one percent allocated for General Fund operations and one-half of one percent allocated for jail operations. Proceeds of the tax are credited to the General Fund, Jail Operation Levy special revenue fund, and the Debt Service fund.

Vendor collections of the tax are paid to the State Treasurer by the twenty-third day of the month following collection. The State Tax Commissioner certifies the amount of the taxes to be returned to the County. The Tax Commissioner's certification must be made within forty-five days after the end of each month.

A receivable is recognized at year end for amounts that will be received from sales which occurred during 2009. On the accrual basis, the full amount of the receivable is recognized as revenue. On the modified accrual basis, the amount of the receivable not collected within the available period is recorded as deferred revenue.

Note 9 - Property Taxes

Property taxes include amounts levied against all real property, public utility property, and tangible personal property located in the County. Real property tax revenues received in 2009 represent the collection of 2008 taxes. Real property taxes received in 2009 were levied after October 1, 2008, on the assessed values as of January 1, 2008, the lien date. Assessed values for real property taxes are established by State statute at 35 percent of appraised market value. Real property taxes are payable annually or semiannually. If paid annually, payment is due December 31; if paid semiannually, the first payment is due December 31, with the remainder payable by June 20. Under certain circumstances, State statute permits alternate payment dates to be established.

Public utility property tax revenues received in 2009 represent the collection of 2008 taxes. Public utility real and tangible personal property taxes received in 2009 became a lien on December 31, 2007, were levied after October 1, 2008, and are collected with real property taxes. Public utility real property is assessed at 35 percent of true value; public utility tangible personal property is currently assessed at varying percentages of true value.

Crawford County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2009

Tangible personal property tax revenues received in 2009 (other than public utility property) represent the collection of 2009 taxes levied against local and inter-exchange telephone companies. Tangible personal property tax on business inventory, manufacturing machinery and equipment, and furniture and fixtures is no longer levied and collected. The October 2008 tangible personal property tax settlement was the last property tax settlement for general personal property taxes. Tangible personal property taxes received from telephone companies in 2009 were levied after October 1, 2008, on the value as of December 31, 2008. Amounts paid by multi-county taxpayers are due September 20. Single county taxpayers may pay annually or semiannually. If paid annually, payment is due April 30; if paid semiannually, the first payment is due April 30, with the remainder payable by September 20.

The County Treasurer collects property taxes on behalf of all taxing districts within the County. The County Auditor periodically remits to the taxing districts their portion of the taxes collected. The collection and distribution of taxes for all subdivisions within the County, excluding the County itself, is accounted for through agency funds. The amount of the County's tax collections is accounted for within the applicable funds.

Accrued property taxes receivable represents real property, public utility property, and tangible personal property taxes which were measurable as of December 31, 2009, and for which there was an enforceable legal claim. The entire receivable has been deferred since current taxes were not levied to finance 2009 operations and the collection of delinquent taxes during the available period is not subject to reasonable estimation. On the accrual basis, delinquent real property taxes have been recorded as a receivable and revenue while the remainder has been deferred.

The full tax rate for all County operations for the year ended December 31, 2009, was \$10.30 per \$1,000 of assessed value. The assessed values of real property, public utility property, and tangible personal property upon which 2009 property tax receipts were based are as follows:

	Amount
Agricultural/Residential and Other Real Estate	\$644,932,400
Public Utility	21,691,330
Tangible Personal	1,650,210
Total Assessed Value	\$668,273,940

Note 11 - Interfund Receivables/Payables

Interfund balances at December 31, 2009, consisted of the following individual fund receivables and payables:

Due to General Fund from:	
Auto License and Gas Tax Fund	\$37,976
County Home Fund	125,516
Job and Family Services Fund	1,706
Jail Operation Levy Fund	192,000
Developmental Disabilities Fund	46,598

The balance due to the General Fund included loans made to provide working capital for operations or projects.

The remaining interfund receivables/payables resulted from the time lag between the dates that (1) interfund goods and services are provided, (2) transactions are recorded in the accounting system, and (3) payments between funds are made.

Note 12 - Risk Management

A. Property and Liability

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During 2009, the County contracted with Midland Service Agency, Inc. for property, general liability, auto liability, and physical damage insurance. Building and personal property liability insurance has a limit of \$48,326,033. The primary general liability limit is \$3,000,000. Primary auto liability insurance has a limit of \$1,000,000. Law enforcement professional liability insurance has a limit of \$1,000,000, subject to a \$2,500 retention.

Crawford County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2009

Liability insurance for the county home has a limit of \$1,000,000, health care facility professional liability is \$1,000,000, and umbrella liability coverage has a limit of \$2,000,000.

Settled claims have not exceeded commercial coverage in any of the past three years, and there has been no significant reduction in coverage from the prior year.

B. Employee Health Benefits

In 2002, the County established a Health Benefits self-insurance fund (an internal service fund) to account for and finance its uninsured risks of loss. Under this program, the Health Benefits self-insurance fund provides coverage for up to a maximum of \$100,000 per year for each individual, with a maximum of a \$1,000,000 aggregate over the employee's life. The County purchased commercial insurance for claims in excess of coverage provided by the fund and for all other risks of loss. Settled claims have exceeded the fund's coverage; however, these claims have not exceeded the stop loss coverage. Excess costs have been reimbursed by stop loss insurance coverage.

All funds of the County participate in the program and make payments to the Health Benefits self-insurance fund based on actuarial estimates of the amounts needed to pay prior- and current-year claims. The liability for unpaid claims costs reported in the fund at December 31, 2009, is based on the requirements of Governmental Accounting Standards Board Statement No. 30, which requires that a liability for claims be reported if information prior to the issuance of the financial statements indicates that is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. The liability was based on a review of all claims paid after the balance sheet date. The estimate was not affected by incremental claim adjustment expenses and does not include other allocated or unallocated claim adjustment expenses.

Changes in the fund's claims liability were as follows:

	Beginning of Year Liability	Current Year Claims and Changes in Estimate	Claims Payments	Balance at Year End
2008	\$448,868	\$2,973,966	\$3,035,678	\$387,156
2009	387,156	3,313,076	3,256,853	443,379

C. Workers' Compensation

For 2009, the County participated in the County Commissioners Association Service Corporation (Plan), a workers' compensation insurance purchasing pool. The Plan is intended to achieve lower workers' compensation rates while establishing safer working conditions and environments for the participants. The workers' compensation experience of the participating counties is calculated as one experience and a common premium rate is applied to all participants in the Plan. Each participant pays its workers' compensation premium to the State based on the rate for the Plan rather than its individual rate. In order to allocate the savings derived by formation of the Plan, and to maximize the number of participants in the Plan, annually the Plan's executive committee calculates the total savings which accrued to the Plan through its formation.

This savings is then compared to the overall savings percentage of the Plan. The Plan's executive committee then collects rate contributions from or pays rate equalization rebates to the various participants.

Crawford County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2009

Participation in the Plan is limited to counties that can meet the Plan's selection criteria. The firm of Comp Management, Inc. provides administrative, cost control, and actuarial services to the Plan. Each year, the County pays an enrollment fee to the Plan to cover the costs of administering the program. The County may withdraw from the Plan if written notice is provided sixty days prior to the prescribed application deadline of the Ohio Bureau of Workers' Compensation. However, the participant is not relieved of the obligation to pay any amounts owed to the Plan prior to withdrawal and any participant leaving the Plan allows representatives of the Plan to access loss experience for three years following the last year of participation.

Note 13 - Defined Benefit Pension Plans

A. Ohio Public Employees Retirement System

Plan Description - The County participates in the Ohio Public Employees Retirement System (OPERS). OPERS administers three separate pension plans. The traditional plan is a cost-sharing, multiple-employer defined benefit pension plan. The member-directed plan is a defined contribution plan in which the member invests both member and employer contributions (employer contributions vest over five years at 20 percent per year). Under the member-directed plan, members accumulate retirement assets equal to the value of the member and vested employer contributions plus any investment earnings. The combined plan is a cost-sharing, multiple-employer defined benefit pension plan that has elements of both a defined benefit and a defined contribution plan. Under the combined plan, employer contributions are invested by OPERS to provide a formula retirement benefit similar to the traditional plan benefit. Member contributions, whose investment is self-directed by the member, accumulate retirement assets in a manner similar to the member-directed plan. While members in the State and local divisions may participate in all three plans, law enforcement (generally sheriffs, deputy sheriffs, and township police) and public safety divisions exist only within the traditional pension plan.

OPERS provides retirement, disability, survivor and death benefits, and annual cost of living adjustments to members of the traditional and combined plans. Members of the member-directed plan do not qualify for ancillary benefits. Authority to establish and amend benefits is provided by Chapter 145 of the Ohio Revised Code. OPERS issues a stand-alone financial report that may be obtained by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642 or by calling (614) 222-5601 or 800-222-7377.

Funding Policy - The Ohio Revised Code provides statutory authority for member and employer contributions. For the year ended December 31, 2009, members in the state and local classifications contributed 10 percent of covered payroll, public safety and law enforcement members contributed 10.1 percent.

The County's contribution rate for 2009 was 14 percent of covered payroll, except for those plan members in law enforcement or public safety, for whom the County's contribution was 17.63 percent of covered payroll. For 2009, a portion of the County's contribution equal to 7 percent of covered payroll was allocated to fund the postemployment health care plan from January 1 through March 31 and 5.5 percent was allocated from April 1 through December 31. Employer contribution rates are actuarially determined. State statute sets a maximum contribution rate for the County of 14 percent, except for public safety and law enforcement, where the maximum employer contribution rate is 18.1 percent.

Crawford County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2009

The County's required contribution for pension obligations to the traditional and combined plans for the years ended December 31, 2009, 2008, and 2007 was \$1,169,344, \$952,751, and \$1,097,725, respectively; 92 percent has been contributed for 2009 and 100 percent has been contributed for 2008 and 2007. Contributions to the member-directed plan for 2009 were \$13,715 made by the County and \$9,796 made by plan members.

B. State Teachers Retirement System

Plan Description - Certified teachers, employed by the school for Developmental Disabilities, participate in the State Teachers Retirement System of Ohio (STRS Ohio), a cost-sharing, multiple-employer public employee retirement system administered by the State Teachers Retirement Board. STRS Ohio provides retirement and disability benefits to members and death and survivor benefits to beneficiaries. STRS Ohio issues a stand-alone financial report that may be obtained by writing to the State Teachers Retirement System, 275 East Broad Street, Columbus, Ohio 43215-3771, by calling (888) 227-7877, or by visiting the STRS Ohio Web site at www.strsoh.org.

New members have a choice of three retirement plans, a Defined Benefit Plan (DBP), a Defined Contribution Plan (DCP), and a Combined Plan (CP). The DBP plan offers an annual retirement allowance based on final average salary multiplied by a percentage that varies based on years of service or an allowance based on member contributions and earned interest matched by STRS Ohio funds multiplied by an actuarially determined annuity factor. The DCP allows members to place all their member contributions and employer contributions equal to 10.5 percent of earned compensation into an investment account. Investment decisions are made by the member. A member is eligible to receive a retirement benefit at age fifty and termination of employment. The CP offers features of both the DBP and the DCP. In the CP, member contributions are invested by the member and employer contributions are used to fund the defined benefit payment at a reduced level from the regular DBP. DCP and CP members will transfer to the DBP during their fifth year of membership unless they permanently select the DCP or CP. Benefits are established by Chapter 3307 of the Ohio Revised Code.

A DBP or CP member with five or more years credited service who becomes disabled may qualify for a disability benefit. Eligible spouses and dependents of these active members who die before retirement may qualify for survivor benefits.

Funding Policy - For the fiscal year ended June 30, 2009, plan members were required to contribute 10 percent of their annual covered salaries. The County was required to contribute 14 percent; 13 percent was the portion used to fund pension obligations. Contribution rates are established by the State Teachers Retirement Board, upon recommendations of its consulting actuary, not to exceed statutory maximum rates of 10 percent for members and 14 percent for employers. Chapter 3307 of the Ohio Revised Code provides statutory authority for member and employer contributions.

The County's required contribution for pension obligations to the DBP for the years ended December 31, 2009, 2008, and 2007 were \$60,327, \$57,367, and \$52,621, respectively; 100 percent has been contributed all three years. Contributions for the DCP and CP for the year ended December 31, 2009, were \$4,165 made by the County and \$3,967 made by plan members.

Note 14 - Postemployment Benefits

A. Ohio Public Employees Retirement System

Plan Description - OPERS maintains a cost-sharing, multiple-employer defined benefit postemployment health care plan for qualifying members of both the traditional and combined pension plans. Members of the member-directed plan do not qualify for ancillary benefits, including postemployment health care. The plan includes a medical plan, a prescription drug program, and Medicare Part B premium reimbursement.

To qualify for postemployment health care coverage, age and service retirees under the traditional and combined plans must have ten or more years of qualifying Ohio service credit. Health care coverage for disability benefit recipients and qualified survivor benefit recipients is available. The Ohio Revised Code permits, but does not require, OPERS to provide health care benefits to its eligible members and beneficiaries. Authority to establish and amend benefits is provided in Chapter 145 of the Ohio Revised Code.

Disclosures for the health care plan are presented separately in the OPERS financial report which may be obtained by writing to the Ohio Public Employees Retirement System, 277 East Town Street, Columbus, Ohio 43215-4642 or by calling (614) 222-5601 or 800-222-7377.

Funding Policy - The postemployment health care plan was established under, and is administered in accordance with, Internal Revenue Code 401(h). State statute requires that public employers fund postemployment health care through contributions to OPERS. A portion of each employer's contribution to the traditional or combined plans is set aside for the funding of postemployment health care.

Employer contribution rates are expressed as a percentage of the covered payroll of active employees. In 2009, local government employers contributed 14 percent of covered payroll (17.63 percent for public safety and law enforcement). Each year, the OPERS retirement board determines the portion of the employer contribution rate that will be set aside for funding postemployment health care benefits. The amount of the employer contributions which was allocated to fund postemployment health care was 7 percent of covered payroll from January 1 through March 31, 2009, and 5.5 percent of covered payroll for the remainder of the year.

The OPERS retirement board is also authorized to establish rules for the payment of a portion of the health care benefits by the retiree or the retiree's surviving beneficiaries. Payment amounts vary depending on the number of covered dependents and the coverage selected. Active members do not make contributions to the postemployment health care plan.

The County's contribution allocated to fund postemployment health care benefits for the years ended December 31, 2009, 2008, and 2007 was \$838,305, \$967,569, and \$718,013, respectively; 92 percent has been contributed for 2009 and 100 percent for 2008 and 2007.

B. State Teachers Retirement System

Plan Description - The County contributes to a cost-sharing multiple-employer defined benefit Health Care Plan administered by the State Teachers Retirement System of Ohio (STRS Ohio) for eligible retirees who participated in the Defined Benefit or Combined pension plans offered by STRS Ohio. Benefits include hospitalization, physicians' fees, prescription drugs, and reimbursement of monthly Medicare Part B premiums. The Plan is included in STRS Ohio's financial report which may be obtained by calling (888) 227-7877 or by visiting the STRS Ohio Web site at www.strsoh.org.

Crawford County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2009

Funding Policy - Ohio law authorized STRS Ohio to offer the Health Care Plan and gives the Retirement Board authority over how much, if any, of the health care costs will be absorbed by STRS Ohio. Active employee members do not contribute to the Health Care Plan. All benefit recipients pay a monthly premium. By Ohio law, funding for postemployment health care may be deducted from employer contributions. For 2009, STRS Ohio allocated employer contributions equal to 1 percent of covered payroll to the health Care Stabilization Fund. The County's contribution for health care for the years ended December 31, 2009, 2008, and 2007 were \$4,961, \$4,717, and \$4,337, respectively; 100 percent has been contributed for all three years.

Note 15 - Other Employee Benefits

A. Health Insurance

The County is self-insured for employee health benefits. The employees share the cost of the monthly premium with the County. The premium varies among employees depending on the terms of union agreements or County policies.

B. Compensated Absences

County employees earn vacation and sick leave at varying rates depending on length of service and department policy. All accumulated unused vacation time, not to exceed vacation earned in three years, is paid upon separation if the employee has at least one year of service with the County.

Sick leave is earned at various rates as defined by County policy and union contracts and accumulated without limit. Sick leave benefits are paid upon retirement based on various rates and maximums depending on the contract.

Note 19 - Closure and Postclosure Care Costs and Landfill Lease Agreement

The County entered into a lease agreement with Santek Environmental on September 1, 2005, to operate the Sanitary Landfill facility. As part of this agreement, Santek Environmental has agreed to assume certain responsibilities as outlined below while the County will retain ownership.

A. Closure and Postclosure Care Costs

State and federal laws and regulations require the County to place a final cover on the landfill site when it stops accepting waste and to perform certain maintenance and monitoring functions at the site for thirty years after closure. Although closure and postclosure care costs will be paid only near or after the date the landfill stops accepting waste, the Santek lease agreement stipulates that Santek Environmental will assume the financial responsibility for final closure of the landfill. The agreement further stipulates that upon the termination and final closure of the landfill, Santek Environmental will remit to the County an amount equal to the present value of the remaining postclosure care costs. However, in the event of default by Santek Environmental, the County would be contingently liable for closure and postclosure care costs due to the County's responsibility for financial assurance. The liability for closure and postclosure care costs for 2009 was \$3,869,429.

Crawford County, Ohio
Notes to the Basic Financial Statements
For the Year Ended December 31, 2009

The County is required by state and federal laws and regulations to either make annual contributions to an EPA controlled trust fund or demonstrate financial assurance through the “Local Government Financial Test”. For 2009, the County met the Local Government Financial Test requirements. The lease agreement with Santek Environmental stipulates that the County will continue to meet the annual financial assurance obligations with Ohio EPA.

For financial assurance purposes, Ohio EPA requires closure and postclosure costs to be reported based on the worst-case scenario of when closure will occur. For 2009, these costs were \$4,855,505. The County expects to close the landfill in 2039. Actual costs may be higher due to inflation, changes in technology, or changes in regulations.

B. Landfill Lease Agreement

The terms of the Santek Environmental lease agreement also stipulate that Santek Environmental will pay the County a monthly waste fee based on an agreed upon formula that utilizes actual gate collections, the Consumer Price Index, and the rates as established by Santek Environmental but controlled by the County Commissioners. The monthly waste fees being paid to the County will be utilized to retire the general obligation debt issued on behalf of the sanitary landfill.

The agreement further stipulates that the County be paid an annual base rent for use of the sanitary landfill by Santek Environmental. The term of this provision is five years. In addition to the annual base rent, the agreement states that the County be paid monthly capacity rental fees for utilization of airspace at the sanitary landfill. The monthly capacity rental fees are based on a formula utilizing the tonnage of solid waste received and a percentage of net revenues.

Note 20 - Waycraft Workshop, Inc.

The financial statements of Waycraft Workshop, Inc. (Workshop) are prepared on the accrual basis of accounting. Under the accrual basis of accounting, revenues are recorded at the time they are earned and expenses are recorded at the time the liabilities are incurred. The measurement focus is on the flow of economic resources basis. With this measurement focus, all assets and all liabilities associated with the operation of the Workshop are included on the statement of net assets.

Cash and Cash Equivalents - At year end, the carrying amount (book balance) of the Workshop’s deposits and cash on hand was \$51,869 and the unadjusted bank balance (before outstanding checks were deducted) was \$53,306, which was covered by federal depository insurance.

Note 21 - Related Organization

The Crawford County Park District is a distinct political subdivision of the State of Ohio. The District is governed by a Board of Trustees appointed by the Crawford County Probate Judge. The Board of Trustees possesses its own contracting and budgeting authority, hires and fires personnel, and does not depend on the County for operational subsidies. Although the County serves as the taxing authority, its role is limited to a ministerial function. The determination to request approval of a tax, the rate, and the purpose are discretionary decisions made solely by the Board of Trustees. Financial information can be obtained from the Crawford County Auditor, 112 East Mansfield Street, Suite 105, Bucyrus, Ohio 44820.

Note 22 - Joint Ventures

A. Northland Homes and Properties, Inc.

The Crawford County Board of Developmental Disabilities entered into a contract with two other local DD Boards to establish Northland Homes and Properties, Inc. (Corporation). The Corporation is a non-profit charitable corporation which is responsible for developing dwellings, providing affordable housing, and managing a range of residential alternatives and support services to persons with disabilities. Each County appoints two trustees to a board of six members.

The local DD Boards make grants of state community capital assistance housing funds to the Corporation solely for the acquisition of housing for persons with disabilities receiving supported living services. Each DD Board maintains a legal interest in all properties acquired by the Corporation in an amount equal to that given by the Board to the Corporation. The Corporation executes promissory notes secured by mortgages on each property acquired. The notes are interest free. The term of each note and mortgage is one hundred eighty months, and for each month a property remains in the program one-one hundred eightieth of the principal amount is forgiven.

The DD Boards also fund the operational costs of the Corporation. For 2009, the Crawford County Board of Developmental Disabilities contributed \$133,317 for operational costs.

The Corporation is a joint venture among the counties because of the potential liability for the housing loans upon the Corporation's default on loans, or dissolution. Upon dissolution of the Corporation, the Board of Trustees shall distribute all remaining assets of the Corporation to the participating Developmental Disabilities Boards.

Northland Homes and Properties, Inc. is not accumulating any significant financial resources or experiencing any financial stress that may cause an additional financial benefit to or burden on the County.

Further financial information can be found in the Northland Homes and Properties, Inc.'s financial report as of December 31, 2009. Northland Homes and Properties, Inc. is located at 602-C South Corporate Drive, Fostoria, Ohio 44830.

B. Crawford-Marion Alcohol, Drug Addiction, and Mental Health Services Board

The Crawford County Board of Mental Health and the Marion County Board of Mental Health merged in 1996 to establish the Crawford-Marion Alcohol, Drug Addiction, and Mental Health Services Board. The purpose of this merger was to make services available to the respective communities while limiting administrative costs. The newly created Joint-County Board assumed the responsibilities, duties, assets, and liabilities of the merged boards. Each County appoints five members to a board of eighteen members. The other eight members (four from each County) are appointed by the Ohio Director of Mental Health and the Ohio Director of Alcohol and Drug Addiction.

Each County has a separate levy for mental health purposes. These monies are collected in a special revenue fund and sent to the Joint-County Board's fiscal agent to be used by the Joint-County District.

The Joint-County District is a joint venture among the counties because the ongoing funding from each County is necessary for the continued existence of the Joint-County District.

The Crawford-Marion Alcohol, Drug Addiction, and Mental Health Services Board is not accumulating any significant financial resources or experiencing any financial stress that may cause an additional financial benefit to or burden on the County.

Further financial information can be found in the Crawford-Marion Alcohol, Drug Addiction, and Mental Health Services Board's financial report as of December 31, 2009. The Crawford-Marion Alcohol, Drug Addiction, and Mental Health Services Board is located at 907 North Sandusky Avenue, Bucyrus, Ohio 44820.

Note 23 - Insurance Purchasing Pool

The County is participating in a group rating plan for workers' compensation as established under Section 4123.29 of the Ohio Revised Code. The County Commissioners Association of Ohio Service Corporation (CCAOSC) was established through the County Commissioners Association of Ohio (CCAO) as an insurance purchasing pool.

A group executive committee is responsible for calculating annual rate contributions and rebates, approving the selection of a third party administrator, reviewing and approving proposed third party fees, fees for risk management services and general management fees, determining ongoing eligibility of each participant, and performing any other acts and functions which may be delegated to it by the participating employers. The group executive committee consists of seven members. Two members are the president and treasurer of CCAOSC; the remaining five members are representatives of the participants. These five members are elected for the ensuing year by the participants at a meeting held in December of each year. No participant can have more than one member on the group executive committee in any year, and each elected member shall be a County Commissioner.

Note 24 - Related Party Transaction

The County provides the management and staff personnel, at no charge, to Waycraft Workshop, Inc. In addition, management services and salaries, land and facilities, utilities, and certain other general and administrative costs are provided by the County to the Workshop. The Workshop's management has estimated the value of this support to be approximately \$404,239 for the year ended December 31, 2009. In addition, certain assets used exclusively by the Workshop are titled for insurance purposes in the name of the County. These assets are included in the capital assets of the County. Additional habilitative services provided directly to Workshop clients by the County were \$1,249,683.

Note 25 - Contingent Liabilities

A. Grants

The County has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies or their designee. These audits could lead to a request for reimbursement to the grantor agency for expenditures disallowed under the terms of the grant. Based on prior experience, the County Commissioners believe such disallowances, if any, will be immaterial.

B. Housing Loans

Crawford County is liable for the housing loans entered into by Northland Homes and Properties, Inc. upon the default on payment or dissolution of the not-for-profit corporation (See Note 22).

C. Litigation

The County is a party to several legal proceedings seeking damages or injunctive relief generally incidental to its operations and pending projects. The Director of the Ohio Environmental Protection Agency (EPA) asserts that the County improperly received \$860,000 from the Solid Waste Management District (District) during 2009. These payments represented past-due lease obligations owed by the District to the County. Additional similar payments for 2010 are being placed in escrow pending resolution of the assertion. The County maintains that these payments were properly made by the District in compliance with the District's Solid Waste Management Plan. The EPA disagrees with this contention. Although litigation has been threatened by the Ohio Attorney General acting on behalf of the EPA to recover some or all of these payments, along with payment of civil penalties for alleged violations of Ohio's solid waste laws and regulations, no litigation has yet been instituted. At present, the parties are in discussion to resolve the EPA's claims. It cannot be determined at this time what the ultimate outcome will be or if any potential loss will occur in the event of an unfavorable outcome.
